

The OmniFlex™ Dispense-and-Vac System

OmniFlex™ can be easily transformed into a high-performance Dispense-and-Vac system, providing an extremely effective, low-cost solution to cleaning and maintaining floors.

Simply add the optional OmniFlex™ Wet/Dry Vac to the Trolley-Bucket and you're ready to go. Just open the spigot and apply fresh cleaning solution to the floor, spread and lightly brush into grout lines, and then vacuum the soils and liquid away. Floors are clean and dry. The process is significantly better, faster and safer than cleaning with a mop.

PERFECT FOR:

Food Service
Convenience Stores
Healthcare
Education
Sports/Fitness
Retail

Daily Floor Cleaning
Degreasing Kitchens
Cleaning Restrooms
Stripping Waxed Floors
Spill Pick-up
Flood Pick-up

Kaivac is a recipient of the National Restaurant Association Kitchen Innovations 2012 Award.

HIGHLIGHTS

- Leaves floors clean and dry, which means reduced slip and fall accidents and immediate availability.
- Powerful vacuum combined with top quality Squeegee Brush Head thoroughly removes soils and contaminants.
- Cleaning solution always stays fresh because soiled water is vacuumed into a separate tank.
- Reduces chemical costs up to 70% while producing better results.
- Built-in dwell time improves results.
- Very easy to learn and use. Even first-time users can achieve great results.
- Simply add optional pump system to convert to a Spray-and-Vac system.
- Empties easily into a toilet or slop sink.
- Low cost is often below capital expenditure thresholds.
- Certified by the National Floor Safety Institute (NFSI) for providing high traction.

Why is OmniFlex™ Dispense-and-Vac Better?

Floors can be difficult and expensive to maintain. If not cared for properly, they not only become unsightly, they can drive customers away, cause slip and fall accidents, and even become a health hazard. Unfortunately, traditional mops make matters worse – especially for grouted floors. In fact, during mopping, grout lines actually “squeegee” soil and soap scum from mops. When the water evaporates, soils, mineral deposits, soap scum and potentially harmful biopollutants are left to penetrate and coat the porous grout. Grout lines that started out light gray or white soon become stained and darkened.

The OmniFlex™ Dispense-and-Vac system offers a low cost solution to this expensive problem.

OmniFlex™ Dispense-and-Vac System Includes:

- OmniFlex Wet/Dry Vacuum
- OmniFlex Trolley-Bucket

Wet/Dry Vacuum Specifications:

Vac Tank	11.5 Gallons (43,5 l)
Dump/Drain Hose	17.5 inches (44.5 cm) long
Vac Tank Cleanout	100% via Dump/Drain Hose
Vac CFM	60 cfm (1700 l/min)
Blow Feature	85 mph (137 km/h)
Vac Motor Lift	114 inches - dead head (290 cm)

Drop The Mop

Dispense fresh solution through throttle spigot on the rear of the Trolley-Bucket.

Brush the floors with the bristled side of the Squeegee Head Brush.

Transition to vacuuming with a quick flip of the Squeegee Head Brush.

Divide and conquer. Breaks apart to support multiple simultaneous activities.
