

The OmniFlex™ Wet/Dry Vacuum

The powerful OmniFlex™ Wet/Dry Vacuum is designed for heavy-duty commercial and industrial floor maintenance.

Used stand-alone as a traditional wet/dry vac, it's great for picking up spills, detail cleaning, job site cleanup, flooding, vehicle and equipment detailing, and more. Or, it can be easily mounted on Kaivac's Flex Trolley-Bucket where it becomes an integral component of a high-performance OmniFlex Dispense-and-Vac or Spray-and-Vac system.

PERFECT FOR:

Wet or Dry Vacuuming
Spill Pick Up
Detail Cleaning
Vehicle Cleaning
Equipment Cleaning
Job Site Clean Up
Flooding

HIGHLIGHTS

- Powerful vacuum combined with top quality squeegee head thoroughly removes soils and contaminants.
- Extra long vac hose improves productivity and function.
- Swivel casters provide easy 360-degree mobility
- Extremely durable construction
- Heavy duty two-stage vacuum motor provides powerful suction
- Quick draining tank for easy emptying and cleaning
