

Life Guard is a multi-national company with disposable glove manufacturing facilities in Taiwan, China, and Indonesia. Since our first establishment in 1985 of our vinyl glove factory in Taiwan, we have been branching our product lines into various types of latex, vinyl and nitrile disposable gloves. Recent additions of our products include disposable polyethylene gloves, yellow latex household gloves and polyethylene aprons.

- Quality
- Value
- Service

Rapid company growth over the years has propelled Life Guard to be recognized as one of a few most reputable manufacturers and importers in the disposable glove industry. Thanks to well over \$1.5 million dollars of inventory level in our new warehouse, we are able to serve and support both our wholesale customers as well as private label container customers all over the US. At Life Guard, we are able, willing, and ready to provide our customers with the very best quality disposable gloves at the most competitive prices with unsurpassed customer service. Past history proves Life Guard's strategy, and orientation to be successful. Our consistent strive for better product quality and relentless pursuit for value has won customers over and over again. We intend to keep our mission intact so we may continue to bring better products, value and services to the glove industry.

Life Guard is the company to partner with when it comes to gloves needs in the United States and world wide.
